the nature of certain recommended changes of particular interest to the intelligence community, such as those dealing with the release of atomic data to foreign governments.

9. Approval of Minutes

21 January Meeting

(IAC-M-325)

Approved as written, subject to the amendment of paragraphs 3 a and 3 d. In connection with paragraph 3 a, it was agreed to place a period after "out" in the last sentence, delete the balance of the sentence, and add: "The IAC approved this procedure."

With respect to paragraph 3 d, the Chairman noted that there appeared to be some question as to the form in which the draft NSCID No. 3 had been approved and was to be sent forward to the NSC, including the precise extent of any dissent. General Collins circulated a proposed amendment of paragraph 4 of that NSCID which included a definition of "Joint Intelligence." Following their discussion, the members approved the definition of "Departmental Intelligence" (in paragraph 3 of NSCID No. 3 and paragraph 7 of NSCID No. 1) in the form in which it appeared in the original 7 January draft. They also approved paragraph 4 of that draft, subject to the deletion of the second sentence and the substitution of: "Joint intelligence is a special category of interdepartmental intelligence jointly produced by the Military Departments in the performance of the assigned missions of the Joint Chiefs of Staff. The Subcommittee structure of the IAC may be utilized for the production and dissemination of interdepartmental intelligence."

In the light of this action, the members agreed that paragraph 3 d of the minutes of the 21 January meeting should be amended to read: "Approved the draft revised NSCID No. 3 (Coordination of Intelligence Production), as amended."
